

MOHAMMAD AZHAR

Data Analyst | Business Analyst | BI Analyst — Fresher

Hyderabad, Telangana, India | 6302113176 | azharmd98803@gmail.com | linkedin.com/in/azhar-mohammad69 | github.com/Azhar0612

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science Engineering (Data Science) student with hands-on experience building end-to-end analytics projects using real-world datasets, plus internship experience in Data Analytics. Proficient in SQL, Python, and Power BI, with a strong foundation in data cleaning, exploratory data analysis, and dashboard development. Focused on translating raw data into clear, actionable business insights.

TECHNICAL SKILLS

Programming: Python, Java (Basic), R (Basic)

Data Analytics: SQL, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Statistics, Data Visualization

Business Intelligence: Microsoft Power BI, DAX, Power Query, Dashboard Development

Visualization: Matplotlib, Seaborn, Chart.js

Web / Development: HTML, CSS, JavaScript, Flask, Streamlit

Database: SQL, SQLite

Tools: Git, GitHub, VS Code, Microsoft Excel

PROJECTS

Alternative Credit Assessment for Financial Inclusion

Data Analytics, FinTech

- Explored alternative approaches to assessing creditworthiness for individuals with limited or no traditional credit history, addressing a key barrier to financial inclusion.
- Researched the use of alternative financial and transactional behavioral data as inputs for a credit assessment framework, in place of conventional credit history.
- Designed a prototype system concept to demonstrate how alternative data sources could support more inclusive credit decisioning.
- Contributed to a research paper examining this approach, connecting the technical concept to its broader application in expanding access to credit.

Sales Trend Analysis

Python, SQL, Power BI, Pandas, SQLite, Flask, HTML/CSS/JS, Chart.js

- Built an end-to-end data analytics system on a real Superstore sales dataset, performing data cleaning and exploratory data analysis using Python and Pandas to prepare data for reporting.
- Designed and queried a SQLite database to analyze sales, profit, orders, regions, categories, and products, surfacing trends across dimensions.
- Developed a Python/Flask backend with a CSV upload feature and built Power BI-style interactive dashboards with KPI metrics for sales, profit, regional, and category performance.
- Implemented a Q-Learning based prediction component to extend the analytics system with a reinforcement-learning-based forecasting element.

Student Performance Analysis

Python, Flask, Dashboard

- Built a data analysis application to study student performance patterns, using Python for data processing and analysis.
- Developed a Flask-based backend to serve processed data and support an interactive dashboard.
- Designed dashboard views to visualize performance trends and support data-driven insights.

EXPERIENCE / INTERNSHIPS

Data Analytics Intern — Averix Solutions Pvt. Ltd (Remote)

August 2026

- Completed a structured internship program in Data Analytics at an ISO 9001:2015-certified organization.

Intern, AI/ML — InternPe

May – July 2026

- Completed an internship in the AI/ML domain.

EDUCATION

B.Tech – Computer Science Engineering (Data Science)

Expected 2027

Nalla Narasimha Reddy Educational Society's Group of Institutions, Hyderabad, Telangana | CGPA: 8.0/10

CERTIFICATIONS

- Data Analytics Internship Certificate — Averix Solutions Pvt. Ltd (2026)
- AI/ML Internship Certificate — InternPe (2026)

ACHIEVEMENTS / EXTRACURRICULARS

- Participated in HACKATHONZ 2026 – Hack2Hire, a national-level 24-hour hackathon organized by Hack With India and Devnovate, hosted by the Dept. of Data Science, Malla Reddy University.
